## WATERPROOFING KIT FOR SHOWER BASE

contains all the material required to waterproof a home-made shower base (approx. 19 ft<sup>2</sup>).

The RESISTO BASIC WATERPROOFING MEMBRANE is a 60-mil-thick, self-adhesive membrane composed of elastomeric bitumen and a woven polyethylene complex. It has a nonslip surface and is very resistant to tearing and foot traffic. It has an easy-to-remove silicone-treated release sheet (double selvage) on the self-adhesive side.
