

# FARM BUILDINGS SOLUTIONS

ENSURE THE MAINTENANCE OF YOUR FARM BUILDINGS THANKS TO OUR SOLUTIONS:  
FLOOR PROTECTION, INSULATION, AND WATERPROOFING

**SOPREMA**

**RESISTO®**

# FARM BUILDING SOLUTIONS

We know how the agricultural sector has its share of challenges and requires substantial investments. That is why we want to help you with what we know best: buildings. Discover our full high-performance product line intended for the maintenance of all types of agricultural facilities, which combines the expertise of SOPREMA and RESISTO.

In addition to offering a wide range of professional solutions that will extend the life of your buildings, we provide you with a large distribution network, expert advice and enriching training, thanks to the strength of our two brands combined.

Agricultural buildings  
housing animals

Food processing  
buildings

Agricultural hangars and  
storage buildings

Silos (exterior)

Propane or  
natural gas tanks

Concrete manure or  
silage pits

# FLOOR PROTECTION

Whether it's the barn, processing areas or warehouses, the floors of your farm buildings are exposed to extreme conditions that can adversely affect their durability and cause them to deteriorate early. Our floor protection solutions are highly wear-resistant and protect your floors against water, abrasion, chemicals along with thermal and physical shocks.

## BENEFITS OF OUR FLOOR PROTECTION SYSTEMS

- Ensure the comfort and safety of livestock – Thanks to their comfortable and non-slip finish, the coatings reduce the risk of falling and injuries to animals.
- Durable and heavy-duty – Excellent resistance to traffic, shocks, water, chemicals, manure, and animal urine.
- Nontoxic – Safe for both humans and animals.
- Easy to maintain – The seamless finish allows for a quick and thorough cleaning that can be done with a high-pressure washer or a shovel without damaging the surface.

# PROTECTION

## DESCRIPTION OF THE SYSTEMS

Discover our floor protection systems, adaptable to all types of buildings!

### CHICKEN COOPS

#### ALSAN FLOOR AGRI LIGHT

- Seamless finish for easy cleaning
- Resistance to high-pressure and shovel cleaning
- Installation of the entire system in one day

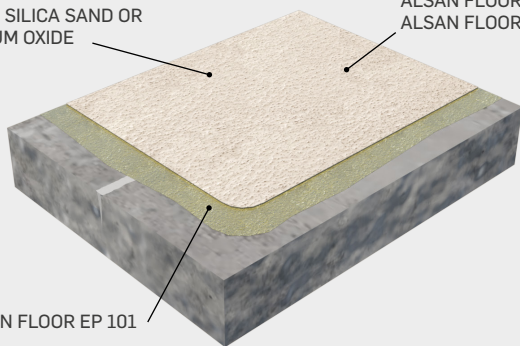

### PIG HOUSES, DAIRY FARMS AND FOOD PROCESSING AREAS

#### ALSAN FLOOR AGRI BASE

PARTIAL SATURATION OF  
24-MESH SILICA SAND OR  
ALUMINUM OXIDE

ALSAN FLOOR EP 440 or  
ALSAN FLOOR EP 101

ALSAN FLOOR EP 101

- Seamless finish for easy cleaning
- Anti-slip finish to prevent falls, but smooth enough not to cause hoof injuries
- Installation of the entire system in one day
- Odourless, VOC free, and 100% solids content
- Superior resistance to mechanical shock

# WATERPROOFING

Our product line for metal protection and waterproofing provides optimal solutions for the overall protection of all your buildings, from the roof to the gutters, including doors and windows. We offer professional-grade materials specifically designed to meet your needs.

## BENEFITS OF OUR WATERPROOFING PRODUCTS

- Exceptional durability
- Quick and easy installation
- Aesthetic heat-reflecting aluminum finish available
- Adhesion on a multitude of surfaces
- Robustness, in addition to weather and UV-ray resistance

## TABLE OF EQUIVALENT PRODUCTS

The following waterproofing products are offered by SOPREMA through direct sales, or by RESISTO at home improvement centres.

SOPREMA PRODUCTS		RESISTO PRODUCTS	
SHEET AND LIQUID MEMBRANES			
SOPRALASTIC 124 ALU		ALUMINUM ROOF COATING	
SOPRASOLIN HD		MULTIPURPOSE WATERPROOFING MEMBRANE	
ALSAN FLASHING		LIQUID WATERPROOFING MEMBRANE RESISTOFLASH	
ADHESIVES AND SEALANTS			
SOPRAMASTIC SP2		M-1 (CHEM LINK)	
SOPRAMASTIC ALU		ALUMINUM ELASTOMERIC SEALANT	

# INSULATION

Good insulation of farm buildings is vital, especially when it comes to the living environments of your animals where a variation of only a few degrees can have serious impacts on their health and comfort. Discover our high-performance insulation solutions adapted to all agricultural needs!

## SOPRA-CELLULOSE

### EXCEPTIONAL RESISTANCE TO INSECTS AND RODENTS:

Its natural additives repel vermin, making it the perfect for farm buildings.

### SUPERIOR THERMAL PERFORMANCE:

The R-value of 3.7 per inch provides optimal temperature and humidity control.

### SAFE FOR HEALTH:

Without any chemical additives, SOPRA-CELLULOSE does not irritate the skin.

## SOPRA-SPF

### SUPERIOR THERMAL PERFORMANCE:

The R-value of 6 per inch provides optimal temperature and humidity control.

### CERTIFIED INSTALLATION:

SOPRA-SPF can only be installed by SOPREMA-certified contractors.

### EXCEPTIONAL ADHESION:

SOPRA-SPF is spray-applied to fill all corners, cracks and hard-to-reach places.

## SOPRA-XPS

### EXCEPTIONAL THERMAL PERFORMANCE:

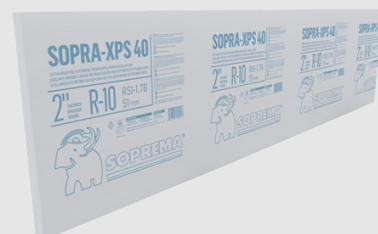

The R-value of 5 per inch provides optimal temperature and humidity control.

### QUICK AND EASY INSTALLATION:

Requiring no training or special equipment.

### EASY MAINTENANCE:

Easily washable with a pressure washer and therefore ideal for farm buildings.

# INSULATION

# REFLECTIVE INSULATION

## UNPARALLELED ENERGY PERFORMANCE

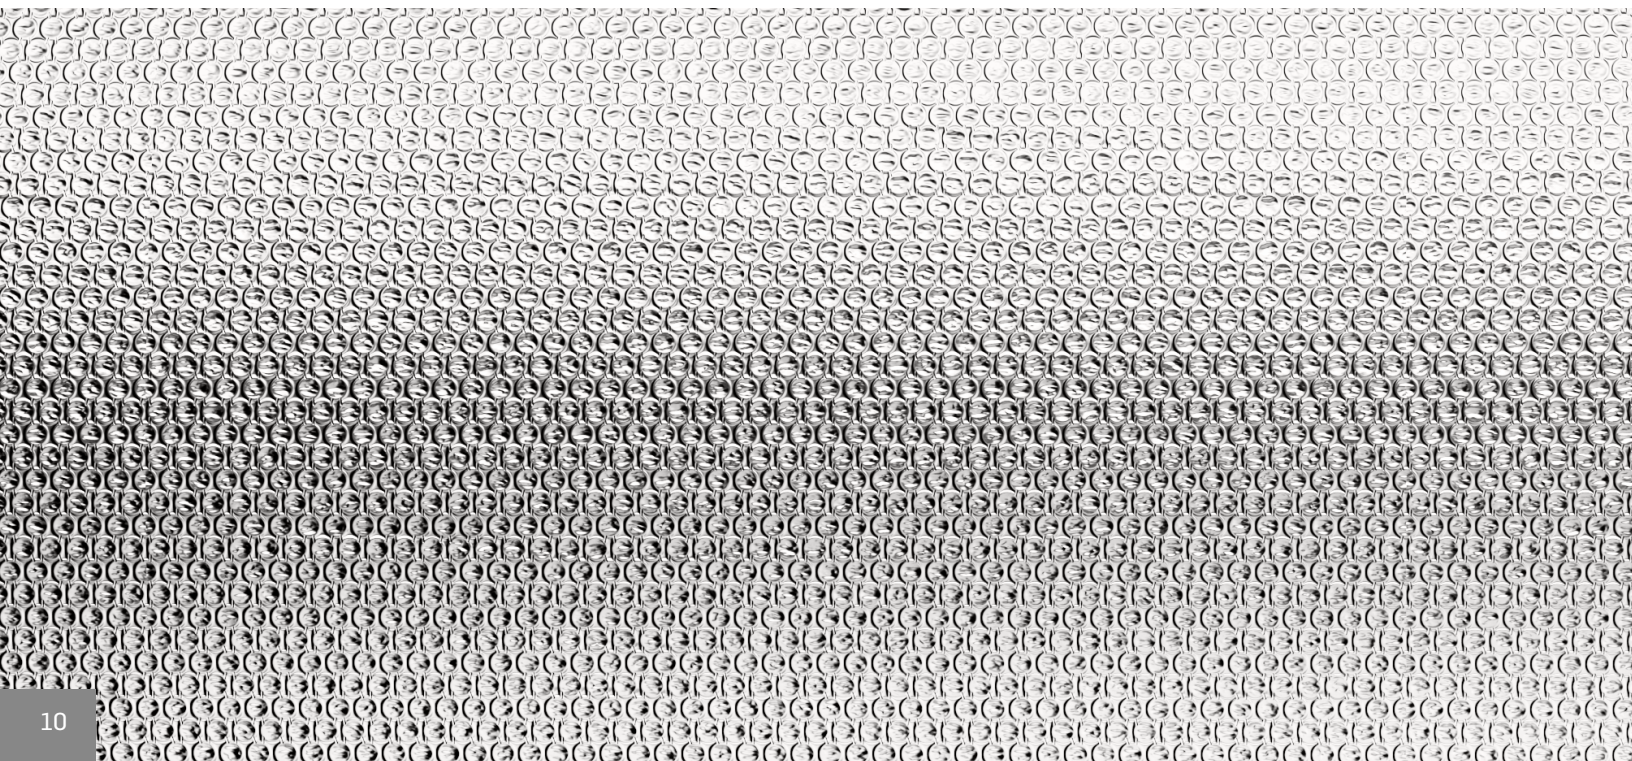

Use thermal transfer through radiation, which efficiently reduces energy-related costs.

## COMPREHENSIVE PRODUCT OFFERING

Five types of products that can be differentiated by their surface and their thickness.

## RESISTANT

Prevent condensation, and are not affected by mould.

## CONTACT ONE OF OUR EXPERTS IN FARM BUILDINGS

Contact one of our farm building experts to ask a question, request additional information on the application of our products in agricultural settings or to learn more about our training sessions.
